### Single Ply

### SUGGESTION

"Evening Star" will be most effective when stitched on a dark blue or violet 28 to 30 count linen. Work floss two ply over a square of two threads of linen fabric. Substituting various shades of gold metallic for one or more of the gold floss colors will add sparkle to the impact of the design. The over-all shape of "Evening Star" lends itself well to finishing in the shape of a heart. Use a twisted braid along its perimeter and add a tassel at its tip.

Enjoy!
